Detailed Description of Work: This project proposes upgrades and expansion of the City's Municipal Wastewater Treatment Plant (WWTP). Upgrades replace components of the treatment train which have surpassed their useful life and expand the facility to handle the projected demand of the forecasted population growth for the City of Pasco. This phase of the project focuses on the aeration basins, blowers, electrical and programming, headworks upgrades and in-land river outfall pipe upsize, along with site improvements.
